

AI Professional Video Creation & Social Media Automation

A personalized one-month intensive course — from complete beginner to confident creator

DURATION	DAILY COMMITMENT	TOTAL HOURS
4 Weeks	**2 Hours**	**~60 Hours**

START DATE

Aug 27, 2026

📋 Student Profile

AREA	DETAIL
Video experience	None — complete beginner
AI tools	Familiar with ChatGPT chatbot only
Social media management	No experience
Technical comfort	High — comfortable with new tools and tutorials
Budget	Open to paid tools
Learning style	Video tutorials, step-by-step, mastery-based
Schedule	2 hrs/day (1hr learn + 1hr practice), 7 days/week
Platforms	YouTube & Instagram
Video styles	Faceless + Talking head + Animated (all three)
Niche	To be decided (part of Week 1)
Goals	YouTuber, Instagram creator, freelancer

🎯 Course Outcomes

By September 23, 2026, you will be able to:

1. **Create professional AI videos** in 3 different styles (faceless, talking head, animated)
2. **Generate high-quality AI images** for any visual need
3. **Write compelling scripts** using AI assistance
4. **Edit and polish videos** with AI-powered tools
5. **Automate content posting** to YouTube and Instagram
6. **Batch-produce content** efficiently using a repeatable system
7. **Have a live portfolio** of published videos on both platforms

🚫 What We're Ignoring This Month

Deliberately cut to keep you focused. You'll learn these later.

- ❌ Professional video editing (Premiere Pro, DaVinci Resolve)
- ❌ Audience growth strategies (SEO, algorithms, thumbnails optimization)
- ❌ Monetization (AdSense, freelance pricing, Fiverr/Upwork)
- ⚠️ Coding/scripting for automation — intro level only; no-code tools are primary

📊 Course Overview At a Glance

WEEK	FOCUS	KEY DELIVERABLE
Week 1 (Aug 27 – Sep 2)	AI Scripting & Image Generation	Channel Launch Kit
Week 2 (Sep 3 – Sep 9)	Faceless Video Production	3 Complete Faceless Videos
Week 3 (Sep 10 – Sep 16)	Talking Head & Animation	Video Styles Showcase
Week 4 (Sep 17 – Sep 23)	Automation & Publishing	The Launch Kit (Go Live!)

🛠️ Tools You'll Use

Free Tools

TOOL	PURPOSE
ChatGPT	Scriptwriting, idea generation, prompt crafting

CapCut (Desktop)	AI-powered video editing, captions, effects
Canva (Free tier)	Thumbnails, graphics, simple animations
Buffer (Free tier)	Social media scheduling (up to 3 channels)
DaVinci Resolve (Free)	Light editing if needed (optional)

Paid Tools (Recommended)

TOOL	COST (APPROX.)	PURPOSE	WHEN TO SIGN UP
Leonardo AI	~$12/mo	AI image generation	Day 3 (Week 1)
ElevenLabs	~$5–11/mo	AI voiceover & voice cloning	Day 8 (Week 2)
Runway ML	~$12/mo	AI video generation & editing	Day 9 (Week 2)
HeyGen	~$24/mo	AI talking head & avatar videos	Day 15 (Week 3)
Make.com	Free–$9/mo	No-code workflow automation	Day 24 (Week 4)

> 💡 **Pro Tip**
>
> You don't need ALL paid tools on Day 1. Sign up for each tool only when the course tells you to — that way you maximize your free trial periods.

🗓️ WEEK 1: Foundations

August 27 – September 2, 2026 (Days 1–7)

Learn to think in content. Master AI image creation.

Day 1 (Aug 27) — Course Setup & Niche Discovery

📖 Learning (1 hour):

- Search YouTube for **"How to find your YouTube niche"** — watch a top-rated video (10–20 min)
- Search YouTube for **"AI video creation for beginners 2024"** — watch an overview video

💪 Practice (1 hour):

- Create accounts: YouTube channel, Instagram creator account, Leonardo AI, Canva
- Use ChatGPT to brainstorm 10 potential niches using this prompt:

```
"I want to start a YouTube and Instagram channel. I'm interested in [list your interests]. Suggest 10 niche ideas that work well for AI-generated video content. For each, explain why it works."
```

- Narrow down to your **top 3 niches**
- Set up your project folder structure (see recommended structure at end of document)

Day 2 (Aug 28) — AI Scriptwriting Mastery

📖 Learning (1 hour):

- Search YouTube for **"How to write YouTube scripts with ChatGPT"** — follow a detailed tutorial
- Study the script structure: **Hook** → **Problem** → **Solution** → **CTA**

💪 Practice (1 hour):

- Write 3 short video scripts (60–90 seconds each) using ChatGPT for your top niche
- Use this prompt framework:

```
"Write a 60-second YouTube Short script about [topic]. Use a strong hook in
the first 3 seconds, present one key insight, and end with a call to action.
Tone: [casual/professional/energetic]."
```

- Save your scripts — you'll turn them into real videos in Week 2

Day 3 (Aug 29) — AI Image Generation: Basics

📖 Learning (1 hour):

- Search YouTube for **"Leonardo AI tutorial for beginners 2024"** — complete beginner walkthrough
- Understand: prompts, negative prompts, models, aspect ratios, styles

💪 Practice (1 hour):

- Generate 20+ images in Leonardo AI experimenting with:
  - Different art styles (photorealistic, anime, 3D, cinematic)
  - Different subjects related to your niche
  - Various aspect ratios (16:9 for YouTube, 9:16 for Reels/Shorts)

Day 4 (Aug 30) — AI Image Generation: Advanced Prompting

📖 **Learning (1 hour):**

- Search YouTube for **"AI image prompt engineering masterclass"**
- Learn: prompt structure, style keywords, lighting terms, composition terms
- Study the prompt formula: `[subject] + [style] + [lighting] + [camera angle] + [mood]`

💪 **Practice (1 hour):**

- Create a **prompt library** document with 20 tested prompts organized by style
- Generate a set of 10 **consistent-style images** for your chosen niche (key for branding)
- Experiment with image-to-image and style reference features

Day 5 (Aug 31) — AI Image Generation: Thumbnails & Channel Art

📖 **Learning (1 hour):**

- Search YouTube for **"How to make YouTube thumbnails with AI and Canva"**
- Learn thumbnail psychology: contrast, faces, text placement, curiosity gap

💪 **Practice (1 hour):**

- Design 5 YouTube thumbnails in **Canva** using AI-generated images from Leonardo
- Create your YouTube channel banner and profile picture
- Create your Instagram profile picture and highlight covers

Day 6 (Sep 1) — AI Image Generation: Consistency & Workflows

📖 **Learning (1 hour):**

- Search YouTube for **"Leonardo AI consistent characters"** or **"AI image consistency for YouTube"**
- Learn about seed numbers, style references, and character consistency

💪 **Practice (1 hour):**

- Create a **brand visual kit**: 3 consistent characters or visual elements for your channel
- Build a reusable workflow: niche idea → ChatGPT prompt → Leonardo image → Canva polish
- Generate enough images for 3 future videos

🏁 Day 7 (Sep 2) — WEEK 1 MILESTONE

Skills Checklist — You Must Be Able To:

- ☐ Explain your chosen niche and why it works for AI video content
- ☐ Write a compelling 60–90 second video script using ChatGPT
- ☐ Generate high-quality AI images in multiple styles using Leonardo AI
- ☐ Create a professional YouTube thumbnail using AI images + Canva
- ☐ Produce consistent-style images that match a brand identity

Milestone Project — "Channel Launch Kit":

1. Your chosen niche (with reasoning)
2. 3 polished video scripts
3. 5 YouTube thumbnails
4. Channel banner + profile picture
5. A prompt library document with 15+ tested prompts

🗓️ WEEK 2: AI Video Creation — Faceless Videos

September 3 – September 9, 2026 (Days 8–14)

Build your first complete videos. Master voiceover + visuals + editing.

Day 8 (Sep 3) — AI Voiceover with ElevenLabs

📖 Learning (1 hour):

- Search YouTube for **"ElevenLabs tutorial for beginners"**
- Sign up for ElevenLabs, explore voice library
- Understand: voice selection, stability, clarity, style settings

💪 Practice (1 hour):

- Convert your 3 scripts from Week 1 into voiceovers
- Test 5 different voices and find 2 that fit your niche
- Export audio files (MP3) for your scripts
- Experiment with pacing and emotion settings

Day 9 (Sep 4) — AI Video Generation with Runway ML

📖 Learning (1 hour):

- Search YouTube for **"Runway ML Gen-2 tutorial beginners"** or latest version tutorial
- Understand: text-to-video, image-to-video, motion settings

💪 Practice (1 hour):

- Generate 10+ short video clips from your AI images using Runway
- Experiment with motion amount, camera movements
- Create clips that match your script scenes

Day 10 (Sep 5) — AI Music & Sound Effects

📖 **Learning (1 hour):**

- Search YouTube for **"Royalty free music for YouTube"** and **"AI music generation tools"**
- Explore: Suno AI (free), Pixabay audio, YouTube Audio Library

💪 **Practice (1 hour):**

- Generate or find 5 background music tracks that fit your niche mood
- Find sound effects for transitions and emphasis
- Organize your audio library by mood/energy level

Day 11 (Sep 6) — Video Editing with CapCut

📖 **Learning (1 hour):**

- Search YouTube for **"CapCut desktop tutorial complete beginners 2024"**
- Learn: timeline, cutting, transitions, text, captions, effects

💪 **Practice (1 hour):**

- Import your AI clips, voiceover, and music into CapCut
- Edit your **first complete faceless video** (60–90 seconds)
- Add auto-captions, transitions, and background music

Day 12 (Sep 7) — Faceless Video Production: Full Workflow

📖 **Learning (1 hour):**

- Search YouTube for **"How to make faceless YouTube videos with AI complete tutorial"**
- Study the full pipeline: script → images → video clips → voiceover → edit → export

💪 **Practice (1 hour):**

- Produce your **second complete faceless video** from scratch
- Focus on smooth flow: scene transitions match narration
- Export in both 16:9 (YouTube) and 9:16 (Instagram Reels) formats

Day 13 (Sep 8) — Polish & Professional Touches

📖 Learning (1 hour):

- Search YouTube for **"How to make AI videos look professional"**
- Learn: color grading, zoom effects, pacing, text animations, intro/outro

💪 Practice (1 hour):

- Revisit your 2 videos and add professional touches
- Create a reusable **intro template** (5 seconds) and **outro template**
- Produce your **third complete faceless video** with all polish applied

🏁 Day 14 (Sep 9) — WEEK 2 MILESTONE

Skills Checklist — You Must Be Able To:

- ☐ Generate professional AI voiceovers with appropriate tone and pacing
- ☐ Create AI video clips from images using Runway ML
- ☐ Edit a complete video in CapCut (cuts, transitions, captions, music)
- ☐ Export videos in both YouTube (16:9) and Instagram (9:16) formats
- ☐ Execute the full faceless video pipeline independently

Milestone Project — Deliver 3 Complete Faceless Videos:

1. Each 60–90 seconds long
2. Each with AI voiceover, AI visuals, background music, and captions
3. At least one in 16:9 and one in 9:16 format
4. Each with a matching thumbnail

📅 WEEK 3: Advanced Video Styles

September 10 – September 16, 2026 (Days 15–21)

Expand your video styles. Build avatar videos and animated explainers.

Day 15 (Sep 10) — AI Talking Head Videos with HeyGen

📖 Learning (1 hour):

- Search YouTube for **"HeyGen tutorial 2024 complete guide"**
- Sign up for HeyGen, explore AI avatars and custom avatars
- Understand: avatar selection, script input, gestures, backgrounds

💪 Practice (1 hour):

- Create 2 talking head videos using HeyGen's stock avatars
- Test different avatars, backgrounds, and gestures
- Use one of your scripts from Week 1

Day 16 (Sep 11) — Custom Avatars & Personal Branding

📖 Learning (1 hour):

- Search YouTube for **"HeyGen custom avatar"** and **"D-ID AI presenter tutorial"**
- Learn about creating personal AI avatars from photos/videos

💪 Practice (1 hour):

- Create a **custom AI avatar** (from a photo or short video clip of yourself, if comfortable)
- Produce a 60-second talking head video with your custom avatar
- Compare quality between stock and custom avatars

Day 17 (Sep 12) — Animated & Explainer Videos: Part 1

📖 **Learning (1 hour):**

- Search YouTube for **"How to make animated explainer videos with AI"**
- Explore tools: Steve AI, Animaker, or Vyond (free trials)

💪 **Practice (1 hour):**

- Sign up for an animation tool
- Create your first animated explainer video (60 seconds)
- Experiment with characters, scenes, and transitions

Day 18 (Sep 13) — Animated & Explainer Videos: Part 2

📖 **Learning (1 hour):**

- Search YouTube for **"Best AI animation tools for YouTube 2024"**
- Study storytelling in animation: visual metaphors, scene pacing

💪 **Practice (1 hour):**

- Create a **second animated video** with improved storytelling
- Add voiceover (ElevenLabs) to your animation
- Combine animation clips with CapCut for final polish

Day 19 (Sep 14) — Mixing Video Styles

📖 **Learning (1 hour):**

- Study popular YouTube channels that mix faceless, talking head, and animation styles
- Analyze how they transition between styles within a single video

💪 **Practice (1 hour):**

- Create a **hybrid video** that combines at least 2 styles
- Example: Avatar intro → animated explanation → faceless B-roll → avatar outro
- Edit everything together in CapCut

Day 20 (Sep 15) — Quality Control & Portfolio Building

📖 Learning (1 hour):

- Search YouTube for **"Video quality checklist for YouTube creators"**
- Learn about: audio levels, color consistency, caption accuracy, pacing

💪 Practice (1 hour):

- Review and polish ALL your best videos from Weeks 2 and 3
- Select your **top 5 videos** as your portfolio pieces
- Re-export any that need quality improvements

🏁 Day 21 (Sep 16) — WEEK 3 MILESTONE

Skills Checklist — You Must Be Able To:

- ☐ Create AI talking head videos with stock and custom avatars
- ☐ Produce animated explainer videos with voiceover
- ☐ Combine multiple video styles in a single video
- ☐ Apply quality control standards (audio, visuals, pacing)
- ☐ Have a portfolio of varied video styles

Milestone Project — "Video Styles Showcase":

1. One talking head video (with AI avatar)
2. One animated explainer video
3. One hybrid video mixing 2+ styles
4. Each with matching thumbnail
5. A written reflection: which style is your favorite and why?

🗓️ WEEK 4: Automation & Publishing System

September 17 – September 23, 2026 (Days 22–28)

Build your posting machine. Set up automation. Go live.

Day 22 (Sep 17) — YouTube Channel Optimization

📖 Learning (1 hour):

- Search YouTube for **"YouTube channel setup for beginners 2024 complete guide"**
- Learn: channel description, keywords, playlists, default upload settings

💪 Practice (1 hour):

- Fully optimize your YouTube channel (description, links, branding, sections)
- Create 2–3 playlists for your content categories
- Manually upload your **first video** to YouTube (learn the upload workflow)

Day 23 (Sep 18) — Instagram Creator Account Setup

📖 Learning (1 hour):

- Search YouTube for **"Instagram creator account setup 2024"** and **"How to post Reels effectively"**
- Learn: bio optimization, content grid, hashtag strategy basics

💪 Practice (1 hour):

- Optimize your Instagram creator profile (bio, highlights, profile pic)
- Manually upload your **first Reel** to Instagram
- Post 2–3 AI-generated images as feed posts to establish your grid

Day 24 (Sep 19) — No-Code Automation with Buffer & Make.com

📖 **Learning (1 hour):**

- Search YouTube for **"Buffer social media scheduling tutorial"**
- Search YouTube for **"Make.com automation for beginners"**

💪 **Practice (1 hour):**

- Sign up for Buffer (free) and connect YouTube + Instagram
- Schedule 3 posts/videos using Buffer
- Create a simple Make.com scenario: auto-post from Google Drive to social media

Day 25 (Sep 20) — Advanced Automation Workflows

📖 **Learning (1 hour):**

- Search YouTube for **"Make.com YouTube automation"** and **"automate Instagram posting Make.com"**
- Study workflow: content folder → auto-format → schedule → post

💪 **Practice (1 hour):**

- Build a complete automation workflow in Make.com:
  - Trigger: new file in Google Drive/Dropbox
  - Action: format and schedule to YouTube and Instagram
- Test the workflow with 2 of your videos

Day 26 (Sep 21) — Intro to Python Automation

📖 **Learning (1 hour):**

- Search YouTube for **"Python for beginners crash course 30 minutes"**
- Search YouTube for **"YouTube API Python upload tutorial"**
- Install Python on your computer

💪 **Practice (1 hour):**

- Write a simple Python script that reads a list of video files from a folder and prints a posting schedule
- Study YouTube Data API documentation (read-only — understand the concepts)

Day 27 (Sep 22) — Content Calendar & Batch Production System

📖 Learning (1 hour):

- Search YouTube for **"Content batching workflow for creators"**
- Learn: content calendar planning, batch production, repurposing content

💪 Practice (1 hour):

- Create a **30-day content calendar** (using Google Sheets or Notion)
- Plan 12 videos (3 per week) for your first month of posting
- Batch-produce 3 videos using your full workflow (script → visuals → edit → schedule)

🏁 🎓 Day 28 (Sep 23) — FINAL CAPSTONE MILESTONE

Skills Checklist — You Must Be Able To:

- [ ] Upload and optimize videos on YouTube (title, description, tags, thumbnail)
- [ ] Post Reels on Instagram with proper formatting
- [ ] Schedule content in advance using Buffer
- [ ] Build a basic automation workflow in Make.com
- [ ] Understand the concept of API-based posting (Python intro)
- [ ] Plan and batch-produce content efficiently

Final Capstone Project — "The Launch Kit":

1. A fully optimized YouTube channel with 3 published videos
2. An Instagram profile with 3 published Reels and 5+ feed posts
3. A working automation pipeline (Buffer or Make.com) with 5 posts scheduled
4. A 30-day content calendar for your next month
5. A documented workflow showing your complete process: idea → script → visuals → video → post

⚠️ Rules for Success

1. **Never skip practice time.** Watching tutorials without doing is wasted time.

2. **Complete each milestone before moving on.** Mastery over speed.
3. **Submit weekly milestone reviews.** Accountability = results.
4. **Save everything.** Build a folder system from Day 1.
5. **Don't chase perfection.** Your first videos WILL be rough. That's normal and expected.
